

Dovetail Machine-Ready Blanks™ from TCI Precision Metals™

Go Directly
from Receiving
to Machining!

Ready to 'Load, Lock, and Go' Directly into Dovetail Workholding Fixtures

New Dovetail Machine-Ready Blanks are custom produced to your specifications and are Machine-Ready – order from one to thousands with quick turnaround. Each Blank includes a precision Dovetail feature to match the brand and model of your specified fixture – ready to go from receiving directly into your 4- and 5-axis CNC machining centers.

TCI Precision Metals has been providing customers with Precision Machine-Ready Blanks for nearly 60-years. Dovetail Machine-Ready Blanks were developed in response to innovations in workholding and provide the perfect complement to Dovetail Fixtures:

- Perfect for 4- and 5-axis work
- Eliminates material prep – one less unnecessary operation in your shop
- Reduces setup time, including the number of setups
- Makes fixturing and clamping faster and easier
- Reduces waste
- Shortens cycle time, chip-to-chip
- Improves part quality
- Better inventory management
- Reduces bottlenecks

Combining Dovetail workholding and Dovetail Machine-Ready Blanks will dramatically increase throughput and lower your overall cost of production jobs.
