

Machine-Ready Blanks

Increase machining throughput by 25% or more!

Oversize Raw Material vs. Machine-Ready Blanks

Go From Receiving to Machining

Machine-Ready Blanks from TCI Precision Metals arrive at your shop ready for finish machining. No sawing, squaring, grinding, or other outside services are necessary. Precision blanks are made square, flat, and parallel to as close as +/- .0005" dimensionally and +/- .002" flatness and can be ordered in quantities from one to thousands, with quick turn-around.

- Eliminate Material Prep Time
- Reduce Set Up Time
- Reduce Scrap
- Increase Overall Throughput by 25%

Each blank is inspected, deburred, cleaned, and individually packaged to protect against damage during shipping. Order two ways:

- **Standard Ready-to-Ship blanks** are available in hundreds of alloy/size combinations and can be ordered online at www.tciprecision.com and shipped the same day or the next day. They are also available through authorized distributors.
- **Custom Made-to-Order blanks** are custom-made to your exact specifications and quantity, with fast turn-around.

Additional Machine-Ready Blank configurations and other value-added services are available on our Website at www.tciprecision.com.
